TECH STACK

PROFESSIONAL PROFILE

Innovative developer with a strong foundation in multimedia engineering and fullstack development. My approach combines technical precision with creativity to design solutions that are not only functional but also engaging for users.

Experience in digital communication and teamwork has strengthened my ability to adapt quickly, collaborate effectively, and drive projects forward. I seek to contribute with a mix of technical expertise, creative thinking, and problem-solving skills to projects in web development, interactive media, and digital innovation.

EDUCATION

Universidad Autónoma de Occidente

- Currently pursuing a B.Eng. in Multimedia Engineering (2023 - 2027)
